Civic body

Shield of nation

Spending on — and — both have an immense govt. None can be ignored.

To recapitulate
expenses made on — and — should be considered jointly. None can be considered lesser than another. The budget should be in such a form that expenditure on both can be accurately made.

INTRODUCTION

The term free entices everybody but this cannot be applied everywhere as it can even make the things undervalued. Hence, education, ----- domain cannot be let free of cost.

Corporal punishment should be given to children

3/15
1st para

For teaching quality education & to make students sincere towards studies

Corporal Punishment is suggested for children.

II
Children - soft No strictness
Somebody said rightly - "spare the rod, save the child"
Teacher - second parent teach children.
love & affection
Children - feel Confident in School.

III
Moreover, I would like to say that, with corporal punishment child - feel insulted & embarrassed
child can feel Xenophobia
he also may fall in depression and develop phobia for teachers & school
Any physical torture can make children infir

IV
On the other hand, there is another school of thought, people believe that there is a need to have corporal punishment - as children - stubborn & cut reply to parents
In this era of cut-throat competition
To improve result corporal punishment can make children infir

I personally believe that there should be strict ban on corporal punishment so students can never feel scared from education institutes

Corporal Punishment Should be given to the accused in the prison.

Agree / Disagree

To maintain peace and tranquility
↓
criminals and offenders are caught
↓
by giving corporal punishment to them
evidences are collected and punishments are given.
Such kind of punishment should not be ignored

??/10

I accord giving any physical torture to culprits not to take revenge by police - but to give justice to public.
As people themselves demand the arrest and physical punishment for the criminals.
Such lawbreakers are hard skin Physical punishment teach them lesson

Undoubtedly the gauge of the culprits can not be broken until police - Not strict It is the physical punishment that brings strictness and prepare them to accept their crime.
It is undeniable due to influence to leaders Culprits - become adamant to accept their crime, definitely corporal punishment shake their obstinate nature.

However, physical torture leads them unwanted disease can make them handicapped. There should be ban on this punishment.

To Recapitulate Govt should keep an eagle eye on such punishment As this is the weapon - which help to end crime laws can make its usage in right manner.

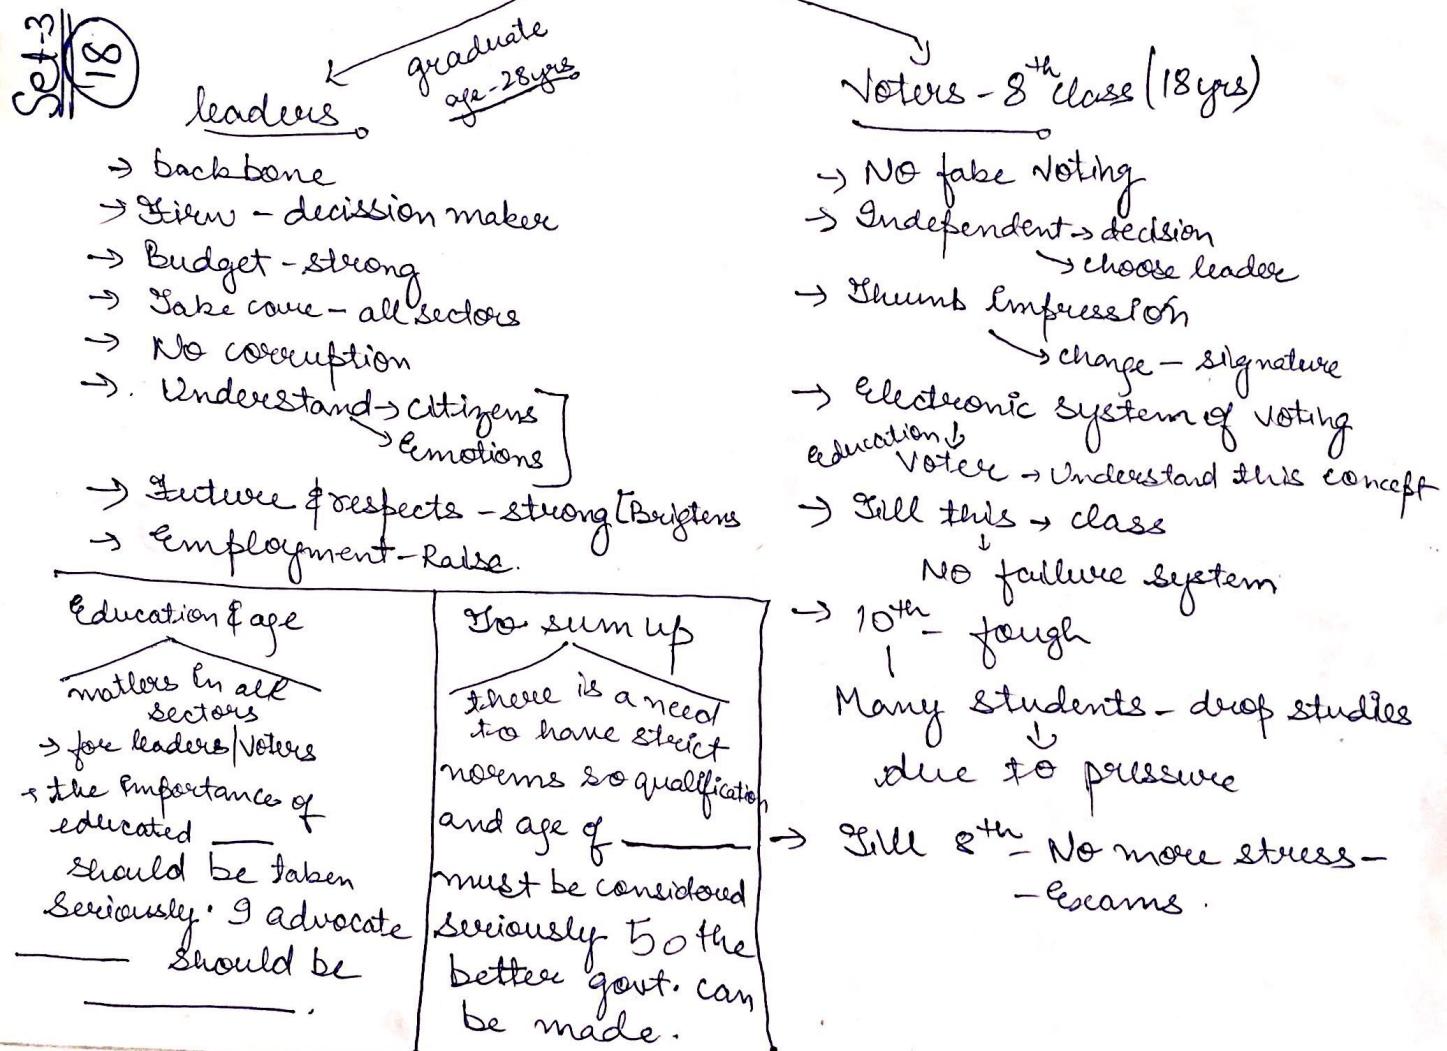

1st Para.
 To maintain peace - country has laws capital punishment one of them. I advocate that it should be legalised.

Prison — Imprisonment [Fostering]

Offender / Criminal / Culprit / accused

Set-3
19

Civic body has made the rule of sending the accused to prisons for long or short period. As these are the places, which are meant to reform culprits and make them ~~free~~.

Prison life meant to eradicate crime.

- dangerous
- By executing certain punishments during prison
- effort - Made to change him.
- strict laws followed.
- In order to change criminal
- Special meditation lectures conducted
- Hymns - played
- Special shrines inside prison.
- To make their religious mind

Moreover

- Recently in India

- Prisoners - are taught
- Skills - stitching, pot making, painting.
- So their hobbies can be exhausted.
- Prison - Not known for using crime.
- They are kept in dark cabins
- compartments.
- lesson to value money, time,

However

- Prison - known to foster crime.
- Due to corruption, influence of leaders
- they are trapped
- feeling of revenge
- raise during prison.

To sum up, prison life meant to eradicate crime.

- a place to teach lesson to prisoners
- to end the path of crime.

Bill Boards and hoardings divert the mind of the player
To what extent do you agree or disagree.

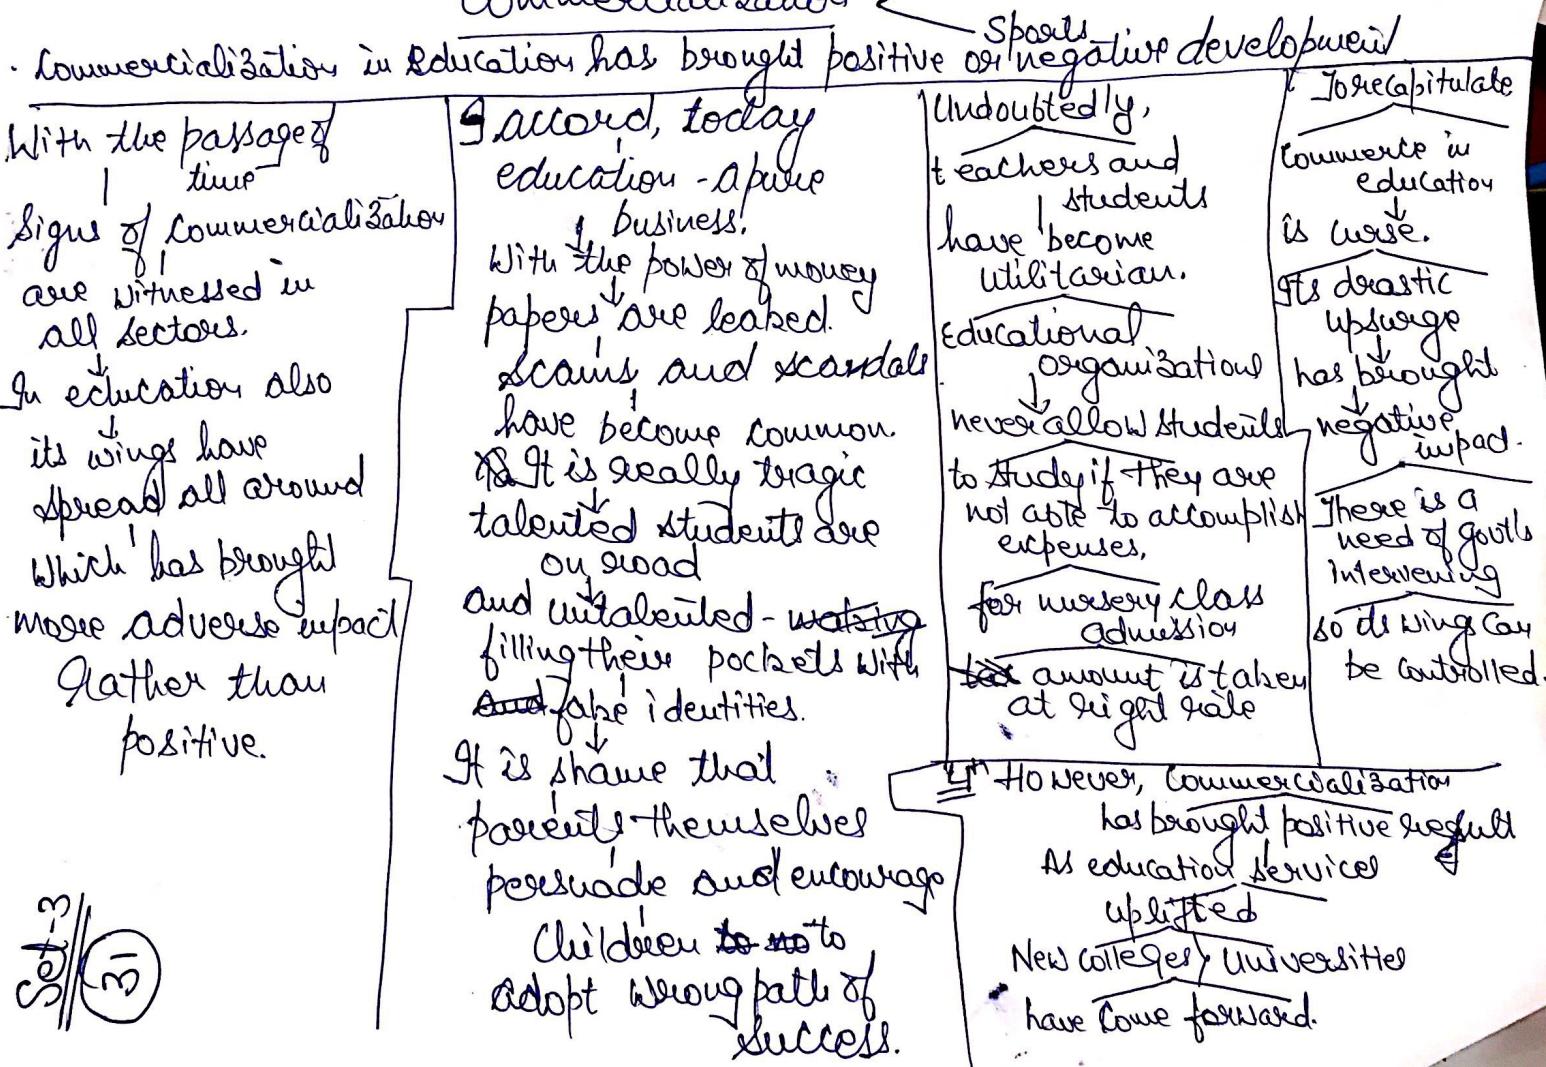

(Q) To promote games
National international level
business tycoons take the burden
By advertising their products in the stadium's
I advocate that such step of promotion bring positive result for the players other than any diversion

stadium - place to organise games
out - itself given duty to advertisers
fences help to beautify stadium
These never attack organise on sportsmanship
and distract the players
with the financial support of advertisers
the whole expenditure of games is taken care

Undoubtedly stadium -
Barren and lonely place without lighting and decorative boards
Many matches
organise midnight
Technical support in every form through such mode of advertisements
Players' images
effigy in stadium
Bring zeal and enthusiasm in players - public
Notching the wind

However, it is believed:
with these boarders, players just make them popular
Not concentrate on games with sharp lights - technical fault occurs
Games quality get spoiled.

Commercialization

Commercialisation in sports has brought positive or negative development
give your views.

Commercialisation has brought a drastic upgrade in myriad of domains in sports sectors its wings are visible and it has brought a positive development and for the players and games

I accord today sports have changed and spread worldwide. With the support of commercialisation national games - have brought international tag. e.g. Kabaddi is one of the live examples Hockey, soccer, cricket Not restricted to individual nation. Large number of countries contribute into it

Undoubtedly, sports → need hefty of money with commercialisation such money is divisioned. It is undeniable today → public figures contribute to their expenses. Archery, Judo, Boxing all games → have come forth with commercialisation

However, commercialisation games cost. As betting match fixing invisible. Feeling of sportsmanship declining

To recapitulate games - new identity with various support Need to have vigil eye, so this commercialisation can not bring any negative result.

Advantages and Disadvantages of Robots

Since many years, the new gadgets have made their presence. But this contemporary epoch is known for its new evolution of robots. They have spread their working around the world but still their demerits cannot be ignored.

2ND PARA

In my point of view, Robots → replaced man
in industries → in scientific researches
given birth to unemployment
might be a reason of rising crime
can be misused by evil people.
→ As in Saudi Arabia where female robot 'Sophia' got citizenship happened for first time in the world.

Set-3

3RD PARA

On the other hand,
Robots are used for future
development

Improve the effectiveness
of production greatly

As they save time and
money

Japan → Robots are used
in industries

They work harder
than human
workers.

Without paid salary

They work 24x7

→ Robots → Used in outer space
research → even on

Mars
while human could
not reach and
robots have left
their footprints

→ Extreme climate expeditions
are now possible with robots

Humans use robots to
enhance their capability

4TH PARA

However,
this is the beginning to
have a parallel robotic
population which could
be dangerous to entire
human civilization if
they are not controlled.

More reliability on robots
can effect the innovation
in future

Robots can be hazardous
for society in future

5TH PARA To sum up,

Robots have become
important invention
for human

But still their
adverse effects cannot
be neglected

Civic body of every
nation should be
careful in the
making and usage
of robots in coming
years.

NEW GENERATION is forgetting culture and totally away from it.
what are the reasons, why is it important to learn, How to learn.

REASONS

Westernization

INTRODUCTION

Culture is legacy of any nation. Predecessors usually pass it to their successors. Ironically it is not done these days in adequate manner but the knowledge of this can be attained by various ways due to its significance.

NUTSHELL

To sum up, it's a high time to get the hold onto culture as it is the unavoidable concept which must be handed-over from generation to generation as it is the foundation.

Movies represent culture in which they are made. Agree/ Disagree

Culture - identification
country.

Movies - not only
